Strawberries
We have tried a good many different kinds, and have discarded them all and gone back to the good old Dunlap for spring bearers. Our plants are extra heavy and will bear year planted.

PROGRESSIVE
Everbearing Strawberry
50 for 75c, 100 for $1.25. Like the spring bearers, we have tried out a good many different varieties of Everbearing strawberries, and while we do not contend that they will give as good results as the spring bearers, yet it will pay any one to plant a bed of Progressives, as they will bear until it freezes up, and it is quite a treat to have strawberries at that time of the year. Give our progressives a fair trial and you will be more than pleased with the results.
